Imagine a seamless zone in your personal space. It is poetry in sanitaryware. Smooth to touch and to operate: For the very first time ever, One Piece Combined WC sanitary products are being manufactured in the country. Eros has played a pioneering role in the manufacture of this huge range of One Piece Combined WC sanitary products. The product range that offers you plenty of choices, is designed to perfection with the guarantee of grabbing your attention and leaving you with that feel of contentment.

Multi-talented facets of Eros have flowered into a huge range of colours and styles in the seamless bath suite model. Remarkable is a word that can be easily associated with Eros products. Eros sanitary ware inherits its Italian looks with panache and rare brilliant whiteness. The company has gone beyond style and has actually thought about how to make it easy for you to maintain your bath suite in its pristine glory. Eros products come with a unique coating that prevents stubborn hard water or salt water stains from forming. Not only this makes it easy to maintain and clean, it also saves water.

## ULTRA THIN AND SHARP

Circle, Square, Oval, Rectangle for the designs collection of vanity basins with extra slim thin and sharp characterized introduced first time with wide range of THIN TABLE TOP BASIN with a high tech process and high tech material with advanced technology which creates its beauty to bath area.

## TECHNOLOGY

In line the new client's need to have the best technology and facility about renovation, hygiene and simply shapes. EROS designed the ceramic WC with internal and rim trap glaze to make hygiene and effective flush with advance robotic fully auto glazing to have equal glaze surface in micron.

India's highest One Piece WC manufacturing company introduces  
**TECHNOLOGY THAT HELPS  
GLAZED TRAP**

Besides aesthetic appeal and elegance of design Eros products also have an added advantage of technology embodiment which finely blends to the conformation of perfect product. Eros has come up with ultra-practical concept of barring the excessive water down the drain. It offers only 3ltrs. Single knob technology that helps consume less quantity than conventional one...

# SUITES
